THE EXPERTS IN HARDWOOD FLOORING

Inner Space Flooring are Birmingham-based flooring specialists who create beautiful hardwood floors which provide stunning focal points for the owners and memorable talking points for visitors for years to come.

From solid wood to engineered boards, our knowledgeable team will discuss the benefits of each with you and source the most suitable floor to meet your needs.

We strive for excellence in every job we carry out, and take great pride in the high levels of service provided to both domestic and commercial customers throughout the UK.

By delivering unrivalled customer satisfaction through the exquisite, individualised floors we install for our clients, and the expert advice we provide along the way, we aim to be the complete flooring solutions provider.

Our services

Whether you're looking to create a unique new look for your room, or trying to match in with the style or décor of somewhere else, we work with a comprehensive range of floor types.

Both aesthetically pleasing and durable, Hardwood is the most common type of floor we supply and install. It's a great option if you have an exact specification in mind as we're able to adjust the production process and finishing to completely change the final look of your floor.

As well as the more traditional hardwood boards, we also specialise in Parquet flooring – smaller solid wood blocks which can be arranged to create unique patterns.

For existing floors that are looking a little tired or may be damaged, we offer a professional renovation service to help restore their former looks.

In addition to wooden floors we can also supply and install safety flooring, tiling, vinyl tiles and carpets.

Whichever type of floor you choose, we'll talk through the different options with you, discussing the benefits of each, and offer any advice or answers to questions you may have.

Our Clients

Our commercial work covers residential projects, restaurants and retail spaces through to schools, sports halls and leisure facilities.

As well as working directly, we collaborate with architects, designers and contractors up and down the country to specify the correct flooring for a client's space and budget. For everything from hardwearing solutions for high footfall areas to a standout look for a foyer or meeting room, our dedicated team will provide you with the most up to date products available on the market, in order to achieve the desired end result.

Our products

We take great pride in our long-standing relationships with the finest hardwood flooring manufacturers in the UK and Europe.

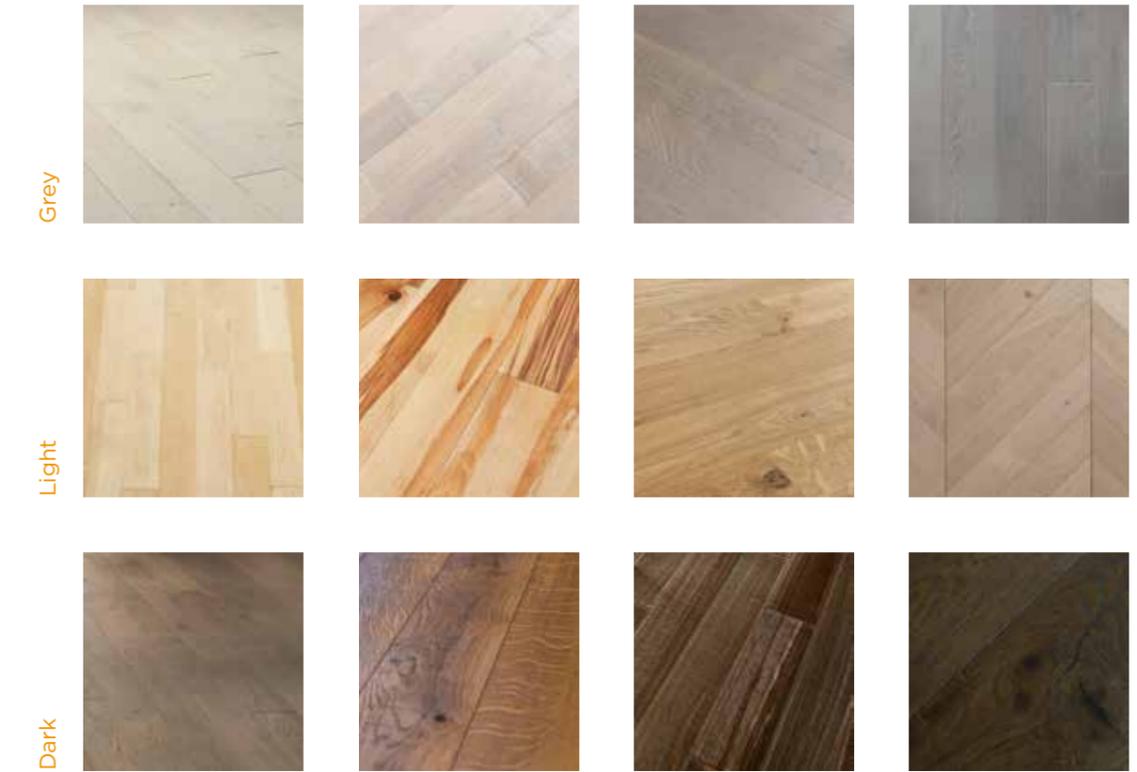

From the 100% Oak parquet flooring by Panaget in France, through to the vast range of products from Havwood or Atkinson & Kirby, we can provide the perfect flooring solution to suit all room types. Looking for something a little different? The Ted Todd collections provide that unique style for when your room demands a floor that's got its own personality.

If our partners don't have the exact floor style or colour you're looking for, don't worry - we can create it for you! We have access to our own finishing factory and can produce flooring that will meet your needs precisely, and even colour match from a photograph or swatch.

It's this bespoke service which sets us apart from the rest.

Below is a snapshot of our most popular flooring styles and colours, although this only makes up a small percentage of our overall product range. Looking for something different? Please get in touch to discuss your specific requirements.

How we do things

We provide a bespoke service for our clients by giving personalised advice on choosing and then installing the perfect hardwood floor for them.

Our team consists of dedicated, knowledgeable and passionate people and we work closely with a small team of skilled craftsman to ensure a seamless process from start to finish.
